

## BERT's CAPABILITIES STATEMENT

### OSHA 10 & 30 Hour Certificates for General Industry

*Could your **TCR, DART, and incident rates be better? We have had significant success. We could help them adjust – reach out today***

Through these offerings, workers can attend live and hybrid 10-hour or 30-hour classes delivered by OSHA-authorized trainers. The 10-hour class is intended to provide workers with awareness of common job-related safety and health hazards, while the 30-hour class is more appropriate for supervisors or workers with some safety responsibility. Through this training, OSHA helps to ensure that workers are more knowledgeable about workplace hazards and their rights, and contribute to our nation's productivity.

***As veteran-owned, we perform with INTEGRITY \* COMPETENCY \* RESPECT \* DEDICATION***

Just imagine how effective your safety program would be if your people were trained and proficient through this course. ***It is NOT a computer program droning on for 30-hours.***

***Are your Workers Comp rates too high? Why? You can make a difference!***

#### 30-hr Modules

Introduction to OSHA  
Managing Safety and Health  
Walking and Working Surfaces, including fall protection  
Exit Routes, Emergency Action Plans, Fire Prevention Plans, and Fire Protection  
Electrical  
Personal Protective Equipment  
Materials Handling  
Hazard Communication  
Elective Topics including:  
Hazardous Materials (Flammable and Combustible Liquids, Spray Finishing, Compressed Gases, Dipping and Coating Operations)  
Permit-Required Confined Spaces  
Lockout / Tag out  
Machine Guarding  
Welding, Cutting, and Brazing  
Introduction to Industrial Hygiene  
Bloodborne Pathogens  
Ergonomics  
Fall Protection  
Safety and Health Programs

**This is tailored to you and your facility's needs.**

***Differentiators: No 3-ring binder on a shelf; successful Implementations integrated into the IIPP and EAP in operations; state-of-the-art integrated communications systems***

***Clients: Water districts, County agencies, Schools, Hauling and Waste Industries, et al. [click link](#)***

**BERT doesn't tell managers what to do in a crisis or incident.** We explore how to consider a crisis from a different perspective. Safety is a mindset and not a set of to-dos. Unlike a pre-packaged notebook, BERT recognizes that when emergencies or incidents happen, plans are forgotten and things go awry. When safety is part of the culture, lives can be saved and disaster averted.

**Authorized OSHA Outreach Trainers:** Trainers are highly credentialed to delivery effective training. The 10-hour safety course covers general safety and health hazards for entry-level workers. The 30-hour safety course provides a greater variety of safety subjects and in-depth, industry-specific training and is intended for supervisors and workers with safety and health responsibility. Successful completion results in powerful credentials for your employees.

**An effective Safety program and system is not about checking a box - It's about saving lives**
